Great. Let me know what you find out. The PFMOAA is available now at Fluorx I think it is called.

They list it on their web site, along with PFMOAA, PFO2HxA, PFO3OA, and Nafion BP1. But it says "call for availability" for all. Chuhui is giving them a call today.

Detlef,

My understanding is Synquest is making it for a few people. I am not sure if it is commercially available yet. The one I know for sure is Rebecca Fry.

Hi Mark,

Is this compound now commercially available? If so, from whom?

Thank you,

Detlef
